

DRAGONWEAR®

FR CLOTHING SPECIFICATIONS

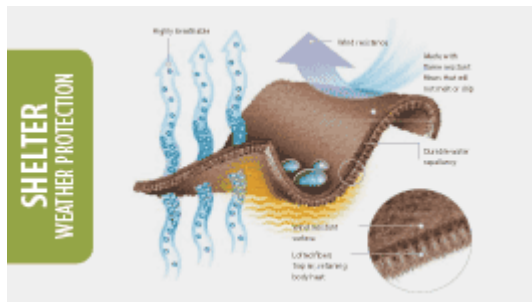

All DragonWear FR fabrics are inherently flame resistant, tested in both in-house and independent state-of-the-art laboratories, and pass relevant industry certifications. We use advanced fabric technology; DuPont™ Nomex® inherently flame-resistant fabric and Polartec's® FR layering system fabric. All our products are designed for safety and comfort and offers the ultimate lightweight, breathable, wind-resistant, water-repellent, wicking comfort. The permanent fire-resistant protection won't melt, drip, or support combustion in the air. It cannot be washed out or worn away.
